

Bairn App User Interview Protocol (Semi-Structured Interview)

1. Research Purpose

This interview aims to explore parents' real experiences of using the Bairn app as part of their everyday caregiving activities.

Specifically, the interview seeks to understand:

- how Bairn fits into parents' everyday caregiving routines;
- which features parents use most frequently and the situations in which they use them;
- how parents use the information and features provided by the app in real caregiving contexts;
- and which aspects of the user experience could be further improved.

2. Introduction

Hello, and thank you for taking the time to participate in this interview. I am a Master's student at the University of Glasgow conducting research on the user experience of the Bairn app.

Today, I would like to learn about your real experiences of using Bairn. We are interested in understanding your experiences rather than evaluating your ability to use the app, so there are no right or wrong answers.

The interview is expected to last approximately 45–60 minutes. With your permission, the interview will be audio-recorded for research purposes only. All information will be treated confidentially and anonymised. You are free to decline to answer any question, and you may withdraw from the interview at any time without giving a reason. Before we begin, do you have any questions?

2. Background Information (Warm-up)

Q1. Could you briefly introduce yourself and tell me how old your baby is?

Q2. How long have you been using Bairn?

Follow-up(if needed): What prompted you to start using Bairn.

Q3. How often do you currently use Bairn?(For participant classification)

Follow-up (if needed): Approximately how many times do you use it in a typical week?

3. Recent Experience

Q4. Could you tell me about the most recent time you used Bairn?

Follow-up (if needed):

What were you trying to do?

Which page or feature did you open first?

What did you do next?

Q5. Thinking about the last few times you used Bairn, in what situations did you usually open the app?

Follow-up (if needed): Could you tell me more about one of those occasions>

Q6. During that session, were there any parts of the app where you paused?

Follow-up (if needed):

What were you trying to do?

What made you pause?

Q7. During that session, were there any pages or content that you didn't explore further?

Follow-up (if needed): What made you decide not to explore it further?

4. Overall Value of Bairn

Q8. Overall, how useful has Bairn been in supporting your day-to-day parenting?

Follow-up (if needed): Could you give an example?

Q9. Were there any features that you found less useful or that did not meet your expectations?

Follow-up (if needed):

Why?

What were you expecting instead?

Q10. Was there anything you expected Bairn to help you with that it did not?

Follow-up (if needed): Could you tell me more about that?

5. Feature-based Follow-up

Interviewer Note

Focus on the features participants actually use. Do not go through every feature. Let participants choose the feature(s) that are most important to them.

Q11. Which feature do you use most in Bairn?

Follow-up (if needed):

Why do you use this feature most often?
Could you describe the most recent time you used it?

Q12. Are there any other features that you use occasionally or find important?

Q13. How does this feature fit into your daily parenting routine?

Follow-up (if needed):

When do you usually use it?

What do you usually do when using it?

Q14. How useful is this feature for you?

Follow-up (if needed):

Why do you find it useful (or not useful)?

Could you give an example?

Was there anything that made it easy or difficult to use?

Was there anything that could have worked better?

Q15. Are there any features that you rarely use or do not use?

Follow-up (if needed):

Why do you choose not to use them?

Is there anything that would encourage you to use them more?

6. High-frequency Users

Ask this section only to participants identified as high-frequency users.

HQF1. As you have continued using Bairn, have you developed a regular way of using the app or a routine?

Follow-up (if needed): Could you describe how you usually use Bairn?

HQF2. Has the way you use Bairn changed since you first started using it?

Follow-up (if needed): What led to those changes?

HQF3. Are there any features that you use less often now than you did before?

Follow-up (if needed): What influenced that change?

7. Low-frequency Users

Ask this section only to participants identified as low-frequency users.

LQ1. Compared with when you first started using Bairn, what has influenced how often you use the app now?

Follow-up (if needed): Could you tell me more about how those changes happened?

LQ2. What factors have influenced whether you continue using Bairn?

Follow-up (if needed): Could you tell me more about those factors?

8. Premium (Bairn+)

If the participant has used Bairn+ features:

PQ1. How useful have these premium features been in your day-to-day parenting routine?

Follow-up (if needed):

Why?

Could you give me an example?

If the participant has not used Bairn+ features but has seen them:

PQ2. Do you think these premium features would be useful to you? Why or why not?

Follow-up (if needed): Is there any premium feature you would consider using in the future?

Why?

9. Experience During Use

Interviewer Note

Ask these questions only if the participant has not already mentioned these issues during the interview.

Q16. Thinking about the most recent time you used Bairn, was there anything that felt confusing, difficult, or slower than you expected?

Follow-up (if needed):

What caused that?

How did you deal with it?

Q17. Were there any labels, icons, pages, or features that were not immediately clear?

Follow-up (if needed):

What did you think they meant at first?

Did they become clearer later? How?

10. Closing

Q18. If you could change one aspect of your most recent experience with Bairn, what would it be?

Q19. Is there anything else about your experience with Bairn that you would like to share?

11. Closing Statement

Thank you very much for sharing your experiences and insights. Your feedback is valuable to this research and will help us better understand how parents experience using the Bairn app. Thank you again for your participation.
